

CLASSMATE
1950

It Has Been Said---

"The men who build the future are those who know that greater things are yet to come, and that they themselves will help bring them about."

This is an individual challenge to each member of the Class of 1950. What tomorrow brings will depend on how each of you meet this challenge.

The officers and personnel of The Bank of Stephenson offer you the facilities of their institution in helping you meet your problems.

dedication

hello gang

here it is—the past present and future are rolled into one—and it's all for you—yes—we've dedicated this annual to the students of stephenson high. we've tried to get the pictures you'd like to see and give you the kind of annual you'd like to read. we've enjoyed doing it for you and now it's all yours.

just as paul bunyan saved several barrels of ink in one winter by not dotting his i's we've saved hours of labor by leaving out capitals and punctuation.

now we're giving it to you—this book of memories fond or otherwise. if we tickle your funny bone laugh! and if pangs of nostalgia begin creeping in that's what we aimed at anyway.

classmate

community english III

top row, left to right—miss reynolds, advisor, virginia allgeyer, earl mottard, warren demille, gladys krantz, violette backman.
 second row—shirley winter, lorraine aman, pat caulk, alicia lespérance, marilyn corey, betty ball, marjorie peterson.
 third row—cleo thoney, elaine miller, dorothy kakuk, joyce mocco, laverne adams, beatrice delaurelle.
 absent members—phyllis shampo, marlyn phillips and regina dishneau.

annual staff

if you see harried looking students -
 miss reynolds turning gray - typewriter
 madly thumping - you'll know exactly
 where you be! community english III -
 editors of school daze - journal school
 column and this here publication.

editor-in-chief—virginia allgeyer.

assistant editor and department historian -
 marilyn corey

a class there was (completely finished now and on its way down
the long road of life)
they worked for four long years (and played some too)
and all they got to show for all their strife was one bright night
(a night of ecstasy)
a thin diploma silver lined with blue a well adjusted outlook
upon life...
two tickets to the prom(they're free one too)
william waranius the genius of the class led the procession (and
led them very well)
eugene jones could lend a helping hand
and marilyn corey made a treasurer swell
while barbara esbrook wrote the minutes down...
the class surveyed achievements with due pride
they turned and looked and wondered at the things
they'd taken so completely in their stride...
the halls of old s.h.s. will empty be
without their smiles and tricks and noises
their advisors in sad memories you'll see
recall the faces of their rambunctious girls and boys—
may they achieve the goals
god keep their little souls'
(soles')

table of characteristics

name	idea of misery	idea of happiness	ambition	greatest fault	favorite expression
allen adams	having to work	to graduate	to work for myself	don't study enough	"do you believe"
alvin alger	getting up in the morning	when i've got a date on saturday night	stenographer	forgetting where i put things	body slams
alvin anderson	staying home at night	going out every night	to live with st. clique	going with "winny"	"ya old head"
alvin anderson	getting up for school	to graduate	factory work or truck driver	trying to be first in the hot lunch line	how i do
alvin anderson	working	getting	to be a writer	putting things off until last minute	yo gods

staley winter	having to stay home at night	having all morning to sleep	to be married	stubbornness	"oh come on now"
betty wutz	monday morning	saturday night	having a millionaire	day dreaming	"oh, yes"

prophecy

well here it is 1960 . . . rode up my escalator to my bedroom . . . I had just had a ham and pickle sandwich . . . it was thumping in my stomach and sort of lulled me to sleep . . . while I was sleeping i had the craziest dream . . . i was floating on cloud 293 . . . (its the pink one with the lavender stripes . . .) when i peeked over the edge - i caught my breath and almost fell off . . . draw up a toadstool and i'll tell you the rest of what happened . . .

well - anyway - i could see all my classmates of the class of '50 below me . . . they sure are scattered . . . (all over the world - that is . . .)

my angel eyes first wandered to a beautiful little farmhouse - on the road east of daggett . . . its set back off the road . . . the main cog is the former loretta johnson . . . (not sure if its cog or boss . . .) she is now mrs. richard vincent . . . sure makes an ideal mother . . .

do you remember two guys from nadeau that were inseparable in the senior class . . . none other than robert nault and robert dorinski . . . true to form they now own a moving van firm . . . if you want anything transported in record breaking time (furniture breaking too) just call 1960 - "in care of bob and bob incorporated - nadeau - michigan . . .

something new has been added around stephenson since leonard kosewski graduated 10 years ago . . . we'll always remember leonard for his dimples - curls - and of course muscles . . . a big neon sign is hanging over a modern building . . . it flashes on and off . . . eat wheaties! eat wheaties! thats what leonard tells his many customers . . . he has opened a charles atlas training course - for weak and unwanted men . . . come in and try it . . .

my cloud is moving around this small community of stephenson-daggett-wallace and etc . . . too bad it isn't propelled—i could move faster . . . now i'm sailing over the lundquist dairy ranch . . . remember lawrence and bernard . . . for brothers they sure get along well together . . . they raise holstein dairy cattle and are really making hay . . .

while my cloud was over the big town of nadeau i happened to catch a glimpse of betty kiszely who is now mrs. ralph runge . . . ralph jr. is awfully cute too!!

i'm floating again . . . hey! i'm falling—whee—that sure was a close one . . .

well - holy ghost look what's sitting on the other side . . . my old bosom buddy . . . (with a halo at that) climb over closer and reminisce with me . . . my cloud is now over bagley - and we see a large farm . . . owned and operated by alton adams . . . alton with his smooth - peaceful voice persuades the chickens to lay more eggs . . . oh yes! he is doing okay . . .

i'm sailing above highway 41 . . . something is coming down the road . . . i'll have to steer my cloud down and see what it is . . . i had better take it easy my brakes aren't as good as they could be . . . these new fang dangled clouds sure are complicated . . . now its clearer - its a truck - the driver looks familiar . . . why of course its gym raboin - and his buddy-buddy pal don tickler sitting along side of him . . . they call their tracking company "we haul everything—you pay for it".

must amble along to stephenson . . . the boys wanted to give us a ride - but my cloud is softer . . . what have we here . . . my - how stephenson has grown since i was in school . . . elevators - escalators - and all the comforts of home . . . even helicopters in place of buses . . . in the new modern gym - we see miss regina dishnead coaching her girls basketball team - better known as "hot shots" . . . miss dishnead is rated as one of the best coaches of stephenson . . . the girls are all laughing - must be that their coach still has her sense of humor . . .

have you heard about the new atomic clipper? donald rabbie has the patent . . . for that new atomic clipped look see mr rabbie - who owns his own barbershop "the atomic cut" . . .

my buddy almost fell off the cloud (guess she isn't used to it . . .) she caused such a breeze that now i'm in hollywood . . . (knew i'd never get there any other way!)

as i fly above the tree tops i see a secluded little dress shop - run by madam oiselle jane beyer . . . i can still remember how she made her own clothes in school . . .

well holy ghost look in the window . . . my buddy is trying on a dress . . . good thing i'm the only one that can see her . . . that red dress doesn't go with her halo . . . they say out in hollywood that miss beyer makes all of carmen miranda's gowns . . .

after much coaxing i persuaded my buddy to come with me again . . . i'd sure like to pick me and my buddy a rich guy

out here . . . just look at all the millionaires floating around . . . look on cloud 294 - if it isn't my old classmate betty watz . . . her cloud is beautiful but that's what money does . . . they say her husband has oodles of money . . . and you should see her new mink . . . a birthday gift from her hubby . . .

i might as well forget about a man - one millionaire in the class is enough . . .

california is sure warm . . . guess i'll breeze down to this soda fountain and get something to cool off . . . wow see that little blonde buzzing around . . . well-blow me down - its dorothy lundquist . . . she owns this shop now! remember when she used to work in strohl's after school hours . . . by the looks of this place she is doing okay . . .

while i'm in hollywood think i'll breeze out and see the rose bowl game . . . golly, all these men . . . the university of michigan is favored to win this year . . . look at that guard over there . . . he's one of my classmates too . . . plays guard - and is rated the best in the country . . . why of course - its harold broberg . . . he always played his heart out way back in '50 . . . his peroxide hair hasn't changed a bit either.

playing for minnesota as end is maurice larsen . . . wonder how it feels to play again t his classmate blonde . . . maurice sure cuts a fine figure in his uniform . . . there is his wife cheering him . . . never thought maurice would get married—he was always so bashful . . . but that's life!

i'd like to stay and see the game but i still have a lot of territory to cover . . . my next stop will be in the el moroco . . . guess i'll go in and have a short-boy! who's that up on the stage . . . its the hubba hubba girl known to the class of '50 as ruth schauer . . . it seems that ruthie has taken up singing as her life career and doing mighty fine . . . wonder if she sings the same songs she used to sing in s.h.s. . . .

enough of night clubs for me - lie . . . must get back to my cloud and start floating . . . guess i'll take this road here . . . say look at that picadilly house down there . . . guess i'll breeze down and look it over . . . i see the carpenter is putting the last minute touches to it . . . i know him—he's lawrence duffin . . . used to be an a i pupil in shop . . . my classmates sure got ahead . . . lawrence tells me he has more contracts than time . . .

shiver-shiver boy is it cold! wonder where i'm at now . . . for a slow moving cloud i sure do travel fast - here i am in alaska . . . lets breeze down and see if that guy fishing over there is catching anything . . . well if it isn't lawrence williams

. . . say lawrence what you doing in alaska? guide! well show me the way home cause - baby its cold outside . . . lawrence makes an ideal guide . . . the practice he got at stephenson hunting and fishing sure comes in handy . . .

while i'm here-i might as well breeze around and see the rest of the place . . . who's that down there on that frozen road . . . better go take a look . . . well if it isn't lois wachter . . . say lois what are you doing up here? you're a missionary huh!? i expected it - you always said you were going to help mankind - back in s. h. s. i'd like to stay and chat lois but its too darn cold . . . be sure and look me up when you come to stephenson . . .

come on buddy lets get out of here before our cloud freezes . . . after such a cold climate i'm going to florida and warm up . . . look there - on the outskirts of alaska

see that big hill . . . is that a bird on skis? i'm going to investigate . . . i know now - its joseph dombrowski! my old classmate . . . can that guy ski!! just look! bet he'll break the record at pine mountain this year . . . even back in '50 joe was an excellent skier . . .

the class of '50 sure gets around . . . i'm still cold . . . buddy get out and push . . . that's better - we're really sailing now! ah feel that heat . . . this is more like it . . . looking down into the heart of florida i see a large sign—"costume designer" and under the sign i see "erna johnson-proprietor" she used to be a classmate of mine . . . really looks like she is well off (in money that is) . . . these classmates of mine really surprise me! they're really getting ahead and here i am still floating-floating-where am i now? can't be too far from florida cause this cloud doesn't go fast and my buddy won't push . . . i see a sign below and lots of men-and more men . . . lets glide down and see what the sign says . . . tampa-florida-well what do ya know-its an army camp . . . i didn't think there could be so many men in one place except in the army . . . ah-i see some familiar faces-i'll glide down closer and maybe i'll be able to remember what their names are . . . well if it isn't sergeants francis peterson and gilbert vanderhouten . . . hear them shouting

classmate

out orders. .those boys sure have changed!
they used to be so quiet in good old s.h.s.

so nice and warm here i really hate to
leave-guess i'll just float around awhile...
here i am in miami-guess i'll get my two
feet on earth and prow around the town
...well well-look over there at that large
modern building-it says rose ruleau pub-
lisher of "better homes and gardens"-does
her own illustrating too-she really has a
head on her shoulders...remember back
in s.h.s. how she did a lot of art work...

whew this heat is getting me down-
guess i'll head back to the windy city of
chicago... i heard rumors that a bunch
of my bosom pals from the class of '50 are
there...

is that a huge hospital over there-i'll
have to get closer to read the name-lets
see-"american norwegian"...wonder what
it's like inside...if i can get my cloud
through the door i'll find out...here we
go...there is the head nurse...why its
barbara esbrook!! gee-i didn't know she
made out this good...running a big hospi-
tal like this...she also specializes in surgi-
cal nursing...she suffered through chemis-
try physics and such (so she says) in school
but it has really paid off... let's go up to
the baby floor...two cute classmates are
in charge here-remember gloria sorensen
and hazel larson...they were always to-
gether in school...they went to the same
school and now are working together-taking
care of babies...i hear they plan on rais-
ing a few of their own someday...

in room 103 they say there is an old
crab-always wanting something and never
satisfied...gloria machalk has been assign-
ed to the old crab...reason? because of
gloria's ability to get along with people...
she was always good natured back in '50...
if anyone can get along with the old bag
it's gloria... well the least we can do is
wish her good luck...

there is betty hultman in that spie and
span uniform...the patients-no matter how
lazy-or crippled always co-operate...under
betty's supervision they are kept busy...
i can't remember of ever seeing betty with-
out something to do-even back in school...

there goes another classmate-mary
koch...she sure is zooming around...sue
is carrying a tray to some lucky patient
right now...

i've had an enjoyable visit here bar-
bara-but don't want to catch any disease
...if you ever need any transportation

(mainly clouds) just let me know...

they have a beautiful lawn out her-
there is another efficient nurse exercising
with the patients...blonde hair too...it's
betty wayberg! she makes a super looking
nurse...the patients all rate her pretty
high-i hear...

do i feel funny-it must be from the
hospital...i think i'm getting seasick...
buddy-quick-have you any ideas what to
do? okay instead of traveling so much
let's just perch in mid air for awhile...
high enough so we can see the whole coun-
try...i'm beginning to feel better...

in hollywood i see bob bakotic broad-
casting a radio show...that's the same
show bob hope used to have...must be
bob has taken over hope's show...remem-
ber bob's long underwear in "inner
willy"! from here it looks like he still
has them on...

in the same studio we see earl mottard
...i can hear him crooning songs like he
used to do back in school... he is taking
over bing's old place...

now my eyes wander to marquette-
michigan...looks like the class of '50 has
taken over the "northern state teachers
college"...there's ruth joslin as "dean
of women"...she rules with an iron hand
(poor kids)...

there's gordon herson shouting n-u-t-s
and pacing back and forth...just like
mr. short his typing teacher used to do...
professor herson is head of the commer-
cial department...as an assistant to pro-
fessor herson i see theresa lusnia...right
now she is in the shorthand room trying
to teach theme analogical word endings...
i can remember the tough time she had
learning them-but has finally mastered the
art...

in room ab i see dorothy johnson try-
ing to train adults to teach grade school
kids...(or vice-versa) just think of all
the lucky kids in grade school at stephen-
son when dorothy took apprentice teach-
ing...

in the history room i see jean engel...
she is the "brain" of this compartment
now...she was practically the only one in
american government class that ever got
an a...(good luck kid).

i can see a bird's eye view of washington
from my nest up here... i see marilyn
economy as the first lady president of the
united states-sitting behind a huge desk
covered with papers...the president wants
to send a letter-so calls in her capabl-

classmate

secretary gladys krantz...both were honor students from the class of '50 and have used their brains to get somewhere in the world...the first lady president has appointed bill waranius as the secretary of state...mr. waranius is miss corey's right hand man in all of the important matters and by the looks of things mr waranius is going to add something to miss corey's left hand...(it glitters)! in '50 whenever you saw marilyn you saw bill and guess that's how it will be for sometime to come....

like father like son so the saying goes and it looks like eugene jones has kept up the tradition...see over on the east side of washington d.c. in that huge office sits eugene...he has control of all the power plants in the country...(big wheel) he just called in his secretary marion hering...my-she even sits on his lap to take dictation...they both seem to be doing okay! (in business-of course).

well what do you know-another one of my class-mates in washington d.c....none other than wayne krueger! wayne is head of the democratic party now! wayne was never at a loss for words at school...now he has put his gift of gab to work..

guess i'll take a little peak at green bay now...ah-what's this i see? the badger green bay business college...it's under new management now...do you remember marjorie peterson and betty ball those two girls who were as in-separable as siamese twins...well they've taken over the college now and are really putting out some efficient secretaries...i can remember back in school how they were both whiz's at typing and shorthand...there's another old buddy of mine-glen backman...i see he owns and operates the green bay lumber company...he got his experience by working in the woods on saturdays during his school days...

my eyes are wandering toward the east-to the huge glittering city of new york...i see a distinguished looking man carrying a large brief case...by the looks of him he is somebody important...what's that name on his brief case? professional lawyer-paul bastien...even in school he could talk people into doing things-even if they didn't want to...

i see a beautiful penthouse and in this penthouse i see a young lady throwing papers around...from the looks of the room she must be a writer...just as i

thought-violette backman! i knew she'd be a great writer someday...she always did do a lot of composing back in school-especially for the school paper...

my roving gaze is back in stephenson again...what's this i see? an old class-mate of mine in a police car-why eddie godlewski-what did you do? heck-he didn't do anything...he's a state trooper! just cruising around i suppose-didn't think an arrested man would drive the police car...

ah ha-here is another farmer from the class of '50...none other than bob fox...he owns and operates a farm at cedar river-michigan...

stephenson sure has grown i see they have a professional baseball team now! better known as the "wolf pack"...remember orton melchoir-he just signed a ten-year contract with the wolves as catcher...another contract just as important has been signed...there's only one hitch "dug is now married" to none other than alicia lespérance...alicia claims this is one contract that can't be broken...

there is another one of our classmates mrs. richard bueltman-the former delia hayward...through the window we can see her bathing her little cherub!

do you want to be beautiful? do you want hands that men adore? do you want to get engaged? the new beauty shop in stephenson does this and more for you...if you are a complete drip-it will make you more complete...proprietor-adelaide beau-doin...even back in '50 adelaide's hair was neat as a "glamorified wig"...

ah i see that another girl from the class of '50 is married...remember anne sjoholm? she's mrs. manny sundberg now...they live in a sky-blue pink house with a grass green-red lawn about 3 miles from stephenson...isn't married life wonderful anne?

ever been on a raft on the pacific ocean? that's just the way i'm beginning to feel on this cloud...it's swaying and turning around so much i can hardly keep my glance focused...not even the darned emergency brake will stop it...

i see figures but i can't make them stand still...the cloud below has passed and i can see through now...a huge red semi truck is traveling down the road...wow he is going to hit that oncoming car...oops-he missed...(the car that is...) no wonder he missed it was warren newlin driving...the way he handles the truck

shows experience...maybe i could hire him to drive my cloud...

think i'll take a sneak peek at my home town...getting kind of lonesome for the old place...ah i see a new modern building with "pool hall" written on the side...proprietor eldred swanson! say he is doing okay! look at all the business he has...he got his experience during his school days...

moving my glance a little south of stephenson i see a huge farm with all the modern conveniences...with all these work saving devices it could only have one owner...alex malawka!! another convenience is his cute little wife...leave it to alex to be comfortable...

shifting my glances a little i see another farmer...these modern farms sure are something...push a button in the house and the cows are milked out in the barn...ervin wery is the proud owner of this ultra modern farm...

say who are those girls in the white uniforms down there???? they're going into the new modern high school-can't be school kids cause they look older than that...guess i'll lower my cloud a little and take a good look...well if it isn't norma casebeer and marilyn fitzpatrick in their slick white nurses uniforms i'll bet they have a lot of patients! they always were good at getting along with people...

hey-buddy look at that big building over down below with all those cars sitting around...can you imagine what it is? i can't either...get under this cloud buddy and pull it down a little...ah - now i can see what it is...a new standard oil station...look!!! there is fred lebeau down there...he used to be a classmate of mine way back in '50...maybe we can get a car from him...what am i talking about?? what would i do with a car up here...

now that my cloud is down lower i can see positively everything...another new building! can't miss this one it's so large...i see that it's an apartment... proprietor-joseph morin...they say he built this place himself...helping him run the place is his capable wife-the former rosena rasmussen...i can see that it's a very successful marriage...for as long as i can remember joe and rosena went together...

say-i heard that they finally got the bridge built across the straits...they said it could never be done-and guess who

accomplished this magnificent miracle??? none other than my old buddy harold pratt...he said he was going to be an engineer but i never thought he would be this famous...

shifting my glance back to stephenson i notice a large crowd is gathered... looks like a big celebration...wonder what the occasion is? it seems to be some sort of an exhibition...say buddy would you like to come down with me? okay then get out and push...ah here we are... why look if it isn't james hacker...now i know what it's all about...jim just came back from a hunting trip over in africa - and today he is showing all the animals he caught...looks like jim had a successful trip...look at all the lions and tigers he has...glad i wasn't with him there!

and last but not least i see an apartment building in milwaukee...there are four girls living there...one is cleaning the small apartment - if it isn't my old buddy pat caulk...(remember how she used to hate work...) but since she became engaged to paul sakovitz she works like a beaver...

out in the tiny kitchen is "blondie" - better known as shirley winter! she's practicing cooking...wonder why? just take a look at her left hand! you guessed it - in another month she'll be mrs. al thorne.

golly with two diamonds in the clique the apartment will soon be vacated...those cute chintz curtains will go to waste... hey! what are we doing up here? let's get down to earth...hang on! here we go! ah yes-gm allgeyer and lorraine aman the other two members of the quartet... we have no future plans - maybe writers - after that darn prophecy we should be good...but i guess we will be buddies to the end...

this is the end!!!

class will

it seems the class of 1950
is loaded with talent galore
they have a will thats mighty nifty
lower classmen couldn't ask for more:

first of all we'll take a look
from lawrence lundquist to pat moran
goes a beat up government book . . .
to a nelson girl
whose nickname is bill
gloria machalk - her quietness does will . . .
warren newlin winks his eye
as he leaves his geography book to edward
freis . . .
hazel larsen wills her bashfulness
to joanne flodine a quiet miss . . .
to willard tiekler from john nordquist
goes his ag. text book which he sure won't
miss . . .
to shirley laurin - a government book -
from dorothy johnson who wears the latest
look . . .
eugene jones - a guy always on the beam
leaves to harold sehlevogt his position on
the football team . . .
to beatrice zimmerman
goes marjorie peterson's ability to do short-
hand . . .
to anyone who wants it
is a basketball jersey no. 10
donated by maurice larsen—
a bequest to ronald palosaari
is francis peterson's physics book to carry .
betty hultman leaves her crochet books
to betty hansen—otherwise known as
"snooks"
and only jim raboin would dare—
to will mr. voelker his black wavy hair
erna johnson leaves her locks of blonde
to eloise jenkins—of whom she is quite
fond . . .
loretta johnson wills her job on the poster
committee
to poor dorothy kakuk - who deserves all
your pity . . .
her piano lessons are rosena rasmussen's
bequest
for joanne hedin to do her best . . .
leonard kosewski has dimples you know
and wills them to shirley laurin
who hates to see him go . . .
wayne krueger with very much skill
to don pokovitz his pool cue does will . . .
ann sjoholm her dimples will leave
to rita meintz I do believe . . .
gladys krantz her music will save

over which elaine jardeen will slave . . .
to ronald palosaari from bill waranius
goes his filibustering that made such a
fuss . . .
the famous pool cue of don rabbie
goes to donnie hansen—who else could it
be?
betty watz wills her shorthand book to any-
one—
who thinks this course is full of fun . . .
lois wachter does will
her sarcasm - for her sister adeline to fill . .
ruth schauer - makes a choice
and to dorothy kakuk will her voice . . .
gloria sorensen - has pretty blue eyes -
and wills them to theresa dirkman
to look at the guys . . .
bob bakotic leaves to richard rivard
his trig. book—which he will not find hard .
lawrence williams wills his football pos tion
to bud hart who is happy about the decision
shirley winter wills we hear
her big bass drum to anyone
with a strong constitution and one deat
ear . . .
eldred swanson wills his pool cue
to eric hafeman - to win a game or two . . .
bob nault would like to sling
his geography book at don king . . .
her ability to get along in physics
alice leserance passes .
to the junior girls - the lucky la-ses . . .
violet backman her physics book bestows
on a poor unsuspecting person that doesn't
know . . .
paul bastien's advance math book he passes
on -
to bob weber-of whom he is fond . . .
joe morin a trig book does leave
george raboin a snappy little jr. to receive . .
his senior english book -
earl mottard does bestow
to don king - this will be an awful blow . . .
betty ball a real good pal
bestows her shorthand ability
upon eleanor berg - the lucky gal . . .
"my beautiful nose" lorraine aman does
say -
"goes to anyone who wants it"
"in fact you can have it today . . ."
virginia allgeyer says her will is
her headache: in community english 3
to some junior whiz . . .
altan adams his quietness be-tows
upon arnold tanvas - a guy everyone
knows . . .

-classmate-

regina dishneau - a gal bright and gay -
her sense of humor to pat woessner she is
giving today . . .

harold pratt's prodigious height -
to mike michnick a short little mite . . .
orton melchoir wills his prized possessions
his basketball and football suits
to anyone in these professions . . .
robert dorinski with this certain skill
his printing ability to alvin adams does
will . . .

helen wangerin - the lucky person
gets a "royal typewriter" from gordon
herson

jean engel leaves to marilyn nault
her government book - for a course diffi-
cult . . .

eddie godlewski's skill for shooting pool
goes to philip carroll a junior in school . . .

jim hacker leaves his comb
to allen rhode to keep up his curly dome . . .
ruth joshua is giving away

to francis mellinger - her bookkeeping a--
to anyone who'd take a look

lawrence duffrin leaves his government
book . . .

barbara esbrook - sec. of the senior class--
bestows her job upon allan broberg a job
he couldn't pass . . .

a government book from marian hering
to anyone who thinks its worth sharing . . .
ervin wery has been heard to say

"i have one of those famous government
books to give away . . ."

theresa lusnia wills her library job -
and a box of headache pills -
to anyone who likes to take orders . . .

pat caulk wills her love of boys -
to verna saltz - a will that she enjoys . . .

adelaide beaudoin a cute senior miss -
wills her housekeeping ability -

to anyone who can handle a broom . . .

jane beyer wills her height -

to jeannette gruenstern
a short but cute little mite .

harold broberg wills his football position
to brother earl - providing he's in condi-
tion . . .

to bob weber - marilyn corey does will -
her treasurers job - which we know he can
fill . . .

dorothy lundquist is giving away -
her stephenson home to
roger lundquist today . . .

and now the wills are ended
talents galore? you'll surely agree
we are on our way - success to gain
and leave you just our pictures to see!!

classmate

senior play

ahoy! get a load of the annual dramatic production of the senior class "the inner willy". the public suffered through it on january 19 and reliable reports state that several people were carried out with a stitch in their side.

bob bakotic was cast as the mischievous somewhat embarrassing "inner willy" who came in on a burp. he was clad in nothing but a suit of long underwear and a black derby and occupied himself mainly by eating dill pickles, laying on the floor, and climbing on pianos. everyone agreed that bob was a natural.

bill waranins was willoughby adams a pampered over-raised boy who suffered from turnip phobia and an overabundance of cod-liver oil. he really suffered when someone backstage switched the fish oil bottles and he got the real stuff.

the three old maid aunts - hester - olga and louise were lois wachter - barbara esbrook and marilyn corey. they argued about willoughby's future and cried at the drop of a remark all through the play. princeton harvard or the music conservatory was usually the topic of their conversation.

shirley winter as marybelle the neighbor girl rolled the audience in the aisles with her dull monotone - missing teeth and hanging slip.

virginia allgeyer was carol martin - willoughby's "heart-throb" who went steady with stanley (eddie godlewski) only because he used tooth-picks and needed reforming.

paul bastien was mike stanley's pal who wore his shoes on the wrong feet.

pat caulk and ruth schauer were cast as the marshall twins-a slightly giddy pair of high school girls.

inner willy appeared because willoughby refused to assent himself and tell his aunts he wanted to be a geologist. bashful willoughby also got three dates - carol - trudy marshall - and marybelle for the graduation dance. all ended happily however when mike and stan were induced to take marybelle and trudy with a courage and taxi-fare included. inner willy finally departed leaving his long underwear as a reminder of his presence.

jean reynolds and robert voelker directed the play.

senior carnival

on march 11 the annual senior carnival was held in the stephenson high school gym...

booths of every kind lined both sides of the gymnasium...some of these booths consisted of ring toss - penny toss - dart board - king and queen voting - basketball toss and bingo...at one end of the gym was the marriage bureau for all the "puppy lovers"...on the stage there was a side show for all the "suckers"...

loud screams were heard from the "house of horrors"...

the main attraction of the evening was the pie toss in which a member of the faculty volunteered to have pies thrown at her...

at 10:00 the coronation of the king and queen took place...the freshmen won the election by 200 votes...their candidates were louise beno and robert mel-choir...

senior ball

hey gang - remember way back in october when the seniors completed another one of their great tasks - the harvest ball? ah yes it was quite the thing. when we started out the theme for the ball was "shine on harvest moon" - but I hate to say what it was when we ended. we had the moon alright but that was all. the ceiling of the gym was covered with hundreds of balloons with horrid faces painted on each one. two balloon men hung by their necks from the baskets at each end of the gym. the stage looked like heaven with all the sparkling stars on the curtains and the rest of the gym looked like—well you name it.

all the lucky couples that came to the ball swung and swayed to the music of roy degaynor and his orchestra. and guess what - in spite of exploding balloons last minute substitutions - the ball was a corking success!

senior pageant

"national holidays"

I thanksgiving day

II independence day

III abraham lincoln's birthday

IV memorial day

V armistice day

VI v-j day

the theme of the senior pageant - which is a traditional and annual affair in stephenson high school was chosen in respect to the great importance of the national holidays - which our nation celebrates each year...these dates represent the important events in american history...to these significant dates - our pageant was dedicated...

JUNNIORS

juniors

a class there was by now well on its way
toward the end the peak of its career. . .
they were a busy class (they had to be)
and so they rushed and hustled through the year
with clarence hultman way out in the front
sylvia poupore claimed vice president
shirley strom was honored to be treasurer
and janice winter recorded all the class events. . .
they ordered class rings early in the year
and sponsored teen-age dances by the score
the junior play a riot and a hit
received orchids and compliments galore
and then that night when hopes and dreams came true
the wish of every woman in the land
was but to meet her own sir galahead
and dance the prom away in manner grande. . .

SOPHIES

classmate

sophomores

a class there was (well known by this time)
secure in knowing they "the sophomores" were
they knew the ins and outs. delighted in
explaining to the "frosh" what would occur
throughout the year. their quiet president
joanne hedlin-so capable-so full of friendliness
edwina parrett wrote the minutes-and
vice-president was dennis meintz-no less
valli kuchera took class funds in hand
she came from hungary not long ago.
tobogganing full of spills-hot dogs to eat
composed a class party by no means slow.
the sophomore year. when nothing matters more
than football-dances in the gym. and all
throughout the term they talk about the day
when they-as-juniors-walk around the halls.

FROST

freshmen

a class there was (the class has just begun)
as green as ireland's isle (or green-supposedly)
who wandered aimlessly about the halls
through doors marked-hark! ye olde private entry
they like excitement-(field trips and the like)
and performed deeds most unconventional
their classes usually began with pandemonium
a happening confusing-but unintentional
ame kreuger led them (ah a merry chase
it was) george carroll was vice president
betty horvath-ye quaint old secretary was
shirley foley held the money ah sweet content
they passed the year in riotous unconcern
their class party? tobogganing thrills sublime—
their only hope to pass their tests with a's,
and stay up late at least 'till after nine.

well - gang if you'll put down those
funny books and pocket the dice (i know
they're loaded) i'll let you in for a sur-
prise. there's more to this salt mine
(school that is) than meets the eye. why
they even have classes here. hop up on
the old s.h.s. band wagon and we'll do a
little touring

joseph b. gucky
superintendent of schools

everybody knows our tall smiling superintendent and how he has seen most every state in the union most of canada and the best part of mexico. but what they don't know is that he is a brand new member of the "flying schoolmen". upon joining this organization - mr. gucky went to chicago - detroit - new jersey - new york and atlantic city. this was a ten day event made up of 60 school administrators from 20 states.

mr. gucky considers hunting or fishing to be the ideal sport and pastime during the season you can always find him pursuing his quarry.

mr. gucky graduated from harris high school. from there he attended ferris institute - university of michigan and university of chicago.

we all know j. b. is our good friend. sometimes we need friends.

gerald e. martin
principal

need any advice, ideas or things of that nature? the principal of our fair school is your best best . . . besides being a super fisherman, mr. martin is an excellent photographer so that no one can dispute his word with regard to fish stories . . . if he ever gives up teaching you may find him setting up a detective bureau with the three little martins as assistants . . . long live the commander!!

science department

test tubes - scales - water displaced by wood - smelly crayfish and slimy night-crawlers all are part of the paraphernalia used or misused in the science department.

edmer lacasse has jurisdiction over the two biology classes. both community and basic biology are taught dissection - work with the microscope and sketching specimens are all part of the lab work for both classes. basic biology students expect to go to college so their work is naturally more technical. emphasis in the community class is on the area we live in - and how biology concerns it.

having $3\frac{1}{2}$ years in the army - a "bs" degree from northern - and 3 years of coaching experience at harris - mr. lacasse has been able to survive 5 years of teaching at "c.h.s." and has even learned to like it.

vernon zettle - teaches both community and basic chemistry as mr. lacasse does in biology. curriculum taught the first semester is the same in both classes. the community class works with the more practical aspects of chemistry the last semester.

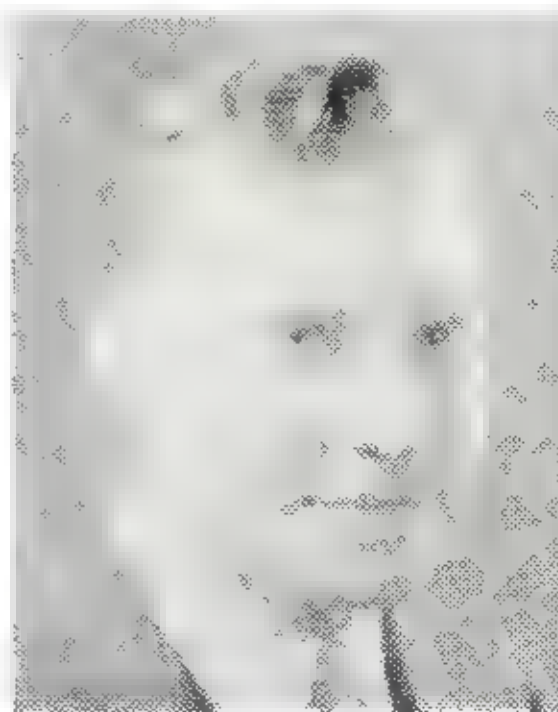

mr. zettle wore his mortar board with "bs" degree under it at michigan state. he has done graduate work at the university of michigan.

7 girls and 7 boys (all seniors) are found in the physics class. it is one of the most practical classes taught in the high school. experiments in heat - electricity - and friction are all part of the course. the experiment in freezing has become a tradition. that's the day ice cream is made. this year dug melchon and harold pratt baked the cakes to be eaten with the ice cream. here's your chance girls - it's not every boy that can bake.

gerald martin - better known as "the commander" teaches the class. mr. martin has a degree from western michigan college of education and has done graduate work at the university of michigan. mr. martin taught school at stephenson for 8 years holding the position of principal the last

vernon zettle

english department

"reading - riten - and rithmetic
taught to the tune of the hickory stick".

there was a time when the 3 rs were
"it" when it comes to education. times
have changed—but they're still important.
the english department which takes in the
first two is consequently one of the largest
departments in s.h.s.

muss husby teaches the most basic of
all english classes - english 9. the 93
students read ivanhoe - gave book re-
ports - wrote themes - and did a unit on
speech work.

community english II is a sophomore
class. as in other english courses theme
writing and grammar are stressed. there
is - however - work done on techniques of
group and panel discussions. mrs frances
weigand wields the hickory stick in the
class. mrs weigand teaches classes in the
math - social science - and english depart-
ments and so enjoys variety in her teach-
ing. mrs weigand claims the distinction
of belonging to the "delta kappa gamma"
the honorary teaching society.

american literature - senior english -
contemporary literature - and community
english are classes taught by miss rey-
nolds.

an english major from the university
of michigan - jean reynolds spends her
teaching time injecting english into the
kids who have an attraction for "dose"
and "dems".

miss reynolds has forfeited her one
free period a day to teach a course in
dramatics. no credit is given - and it is
purely an elective course. work in debate -
dramatic readings - extemporaneous speak-
ing was done.

english is the most practical and most
used subject taught. who can spend even
one hour without speaking (especially at
s.h.s.)? if students cannot discover the
importance in reading "macbeth" they do
find practicability in learning public
speaking. after four years of high school
at s.h.s. the "youse kids" - and "that
theirs" sorta disappear. aint so?

jean reynolds

frances weigand

mathematics department

there's more to the s.h.s math department than adding and subtracting...everything from how to fill out an income tax blank to how to find the trigonometric functions of an oblique triangle is taught.

two practical math courses - general math and community math - boast an enrollment of 67 students...in the former mrs. weigand teaches banking - budgeting - insurance - and social security...john sundquist gives his students a peak at the march 15th death sentence in community math...interpreting data - analyzing - and home accounting are all part of the course...

mr. sundquist - with a bachelor of science degree - a math major - and an extraordinary amount of patience - teaches community math - elementary algebra - plain geometry - and advanced math...

advanced math is frequented by potential engineering students - scientific geniuses - sneakers for hard work - or people who by some fate confess a love for advanced algebra and solid geometry...

mr. sundquist has traveled from washington d.c. to california - and the philippine islands...he is noted for his patience in the eyes of students who get the angles of triangles and income tax forms confused with other angles and forms...

gerald martin "the commander" - teaches trigonometry - the most advanced of all s.h.s. math courses...six boys test their brain potential in the class...trigonometry fundamentals are stressed...if it's true math that helps one to think - the six prodigies will have a head start on most of us...

math is accelerating brain work or a series of red - brown erasers...the tests are preceded by a panic burning of the midnight oil or a systematic review...math is difficult...it is fun...it tests one's brains or lack of brains...s.h.s has a math department to be proud of...

john sundquist

commercial department

james short has developed a resonant voice by pacing up and down the typing room chanting asdf - ;lkj. his students developed their voices by griping about the evils to end all evils - speeds and accuracies. 85 kids pound the typewriters in 1st year typing - and 14 struggle with business letters and mimeographs in business practice.

thirty-six gals take dictation and learn secretarial traits in first and second year shorthand. sitting on the bosses' knee is prohibited.

twelve financial wizards care enough about money to spend a period a day in bookkeeping. it's so much fun analyzing those figures (numbers that is).

mr. short graduated from the school at marquette, not the one with the bars at the window - but northern michigan college of education.

on mr. short's free evenings he referees basketball games. me thinks he practices for these bouts in 8th hour business practice class. it takes a good teacher to make us slave! he does.

mrs. weigand shows 76 kids how to get along in the business training class. the kids learn about the march 15th death sentence, early. (income tax). they learn about bank investments - but who in this day and age has anything to invest? they study insurance - car and life - interest compound and simple that is - check book balancing.

james short

agriculture department

would you like to judge potatoes? would you like to see a model? (cow that is). then take vocational ag. if you would like to judge contests or be in a public speaking contest. then vocational ag. is for you - because the ag. boys can't be beat for energy. besides participating in public speaking and judging contests the agriculture classes take part in the demonstration of ag. skills - parliamentary procedure contests - leadership training camps - field trips - experimental plots and projects in livestock - poultry - hogs and farm crops. this industrious class plays an important part in the future farmers of america association - which takes them to the upper peninsula - state and national f.f.a. conventions.

there are three agriculture classes - ag. I with 20 students - ag. II with 33 students and ag. III with 18 students.

e. walfred granskog has a talent for drawing and telling stories with his drawings - as any student will tell you - for he has entertained us many times.

to a swell teacher and a wonderful ag department - the school extends its best wishes.

walfred granskog

foreign language department

thirty nine s.h.s. shmoos have learned to greet each other - "como esta usted?" i'm talking about las señoritas and los señoras who study 1st year spanish.

señorita husby teaches the class. because of a scarcity of pupils three students are learning 2nd year spanish via the workbook with miss husby's assistance of course.

foreign languages are almost a necessity for college prep students. lack of interest in spanish may be stimulated by the spanish club - one of the few social clubs at s.h.s. the members study spanish history and customs. several parties were on the agenda.

shirley husby left northern with an a.b. degree - a spanish major - and her bone china collection of cups and saucers. her home is in marquette and she is a staunch defender of the land of ice and snow. shes dreaming of a summer at the university of mexico.

buena suerte - señorita husby y shortly y susie y coach!

shirley husby

social science department

mr. voelker who has left his mark on 36 states and made his x in the hotel registers of 8 foreign countries reigns over the social science department.

113 sad sacks fought their way through everything from the revolutionary war to the battle of the six-weeks tests in u. s. history. they were consoled only when they heard that the seniors were having as much fun in compulsory american government. it's so easy to get the presidents mixed with the cabinet officers or those darn battles in the wrong war

something unique happened this year. believe it or not some of us (may your soul rest in peace) wanted a class. the victim was geography. 25 kids are now flying high on the westerly winds and dreaming of those far away islands where everybody eats coconuts and wears grass skirts.

freshmen and sophomores learn the abc's of world history - architecture - battles and culture.

now you've had a peek at mr. voelker's classes. he carries his bachelor of science and bachelor of arts degrees in his brief case along with the senior scholastic.

sociology is the last of the social science get-togethers. mrs. weigand has jurisdiction over our grey matter when it comes to heredity and environment or what have you that makes us the way we are. home and family living finds its way into the course. we ponder weak and weary over the trials of running a home or how to catch a man. (heaven save me for slandering one of our finest courses).

robert voelker

classmate

home ec. department

did you ever smell the delicious odor of burnt muffins seeping through the halls of s.h.s.? don't confuse it with the chemistry lab. blame it on the home ec department. it was heard that the kids had a snow ball fight outside with the rolls they made. one thing they have over the snow balls is that the rolls don't break.

the teacher in this fabulous home ec department is miss rosemary ramsey who hails from niagara wisconsin.

she obtained her degree from central state teachers college at stevens point wisconsin.

her hobbies are skiing and skating and she is especially interested in sewing.

miss ramsey has three classes during the day of two periods each. there are 42 freshmen gals, 45 sophomores and 18 seniors.

some of the projects that the girls accomplish during the year are sewing, cooking, embroidering, knitting, child care.

one of the important events in this class is the spring fashion show at which they model the clothes they made during the year.

in may they go to a f.h.a. meeting at marquette. it's held at northern college. not the prison. duck!!! here comes a muffin!!!

rosemary ramsey

librarian

who started the myth that librarians are dull-old maids? beth brown—one of the most vivacious s. h. s. teachers is neither.

mrs. brown left new york to go to college in "michigan my michigan". she couldn't very well leave our fair state and has taught in stephenson high for six years and married a stephenson man—both achievements to be proud of.

besides being chief book looker upper and magazine cover collector in the library beth has charge of several study halls.

after school hours she listens to her collection of classical records while drinking tea out of english cups (collecting them is another one of her hobbies). and have you heard that she writes excellent poetry?

elizabeth brown

music department

marjorie dickey waves the baton in the band room. the strains of the blue danube mix with the clanging of the steam pipes and the 23 maestros have a lot of fun. they appeared in their snappy band uniforms come basketball or football games. alice lesperance led the procession at the homecoming shin-dig.

72 girls lift their voices in the two glee club. they sing out of sheer enjoyment as well as practicing for the annual spring concert.

2 junior high choirs blend their voices twice a week. 49 of the junior size carusos learn music fundamentals. occasionally they listen to the way it should be done via the record.

even the grade kids get their two-notes worth out of the music department. they take singing or folk dancing right in their stride. the big event came on christmas when they charmed the public with an operetta. the cherubs had a great time, and so did the audience.

miss dickey holds sheep skins from cornell college and columbia university. the amazing thing about her though is she seems to enjoy her classes as much as her prodigies. music hath charm and so hath our director.

marjorie dickey

shop department

seventy-six potential carpenters-cabinet makers-farmers-or handy husbands learn the right way to do things-at the s.h.s. shop.

the seventh and eighth grade boys learn how to use hand tools. the 9th grade general shop units of instruction include mechanical drawings-wood working-some metal work-and printing.

a course in farm shop is offered to boys enrolled in agriculture.

the shop department is building a cabin for the group camp near wells park. groups from every class have worked on the construction under the supervision of a carpenter. the building is almost finished.

fred pinal is shop instructor. eight years at stephenson high school must have conditioned him to the little monsters 'cause he even enjoys his work.

he captured his bs degree from western michigan college at kalamazoo. he couldn't resist the u.p. attractions (scenic that is) and has built a home at stephenson.

robert dando, veteran's instructor-reduces one of the crowded shop classes by working with a group of 12 boys on special project.

manual arts are always important-but in an agricultural community they are doubly so. the course is a practical one-and the boys are taking advantage of it.

fred pinal

art department

ahoy all you potential artists. look what stephenson now has-not only an art department but a new art teacher (and what a teacher). mrs. hughes commands about 40 students in two classes-besides a junior high class. i wonder how many boys are enrolled?)

mrs. hughes has a b.a. degree from michigan state-and has traveled throughout the west-east to michigan and through canada.

when she isn't trying to pound sketch-

ing-painting-house plans-scenes from montana-water colors-study of color-or portrait painting into these 40 thick heads-mrs. hughes occupies herself with sewing-textiles-all kinds of painting-flower arranging-horseback riding-and house designs.

before coming to stephenson, mrs. hughes taught at st. mary's school for problem girls-and greenville public schools in michigan.

athletic department

"going to the game tonight?" is about the most used question tossed around s.h.s. the reply naturally is "of course" athletics have always been in the spot light when it comes to s.h.s. extra-curricular activities.

This year something (or something's) new has been added to the athletic department. the somethings took s.h.s. like grant took richmond. the reference is of course to our new coach - robert gernand and as-sistant coach - francis cappaert. both the body-builders captured their sheep-skins from michigan state. mr. cappaert - a graduate of s.h.s. - couldn't resist our magnetic personalities and found his way back to stephenson. mr. gernand coached an undefeated football team at pigeon - michigan last year. this year at s.h.s. he received his second year of teaching experience one more rung on his way to becoming a college coach.

classes for the 5th - 6th - 7th - and 8th grade girls and boys are taught. the boys are introduced to football and basketball fundamentals. they try their hand at tumbling - wrestling - volley-ball - softball - track and calisthenics.

the girls play basketball - volleyball - softball - and other team games. square dancing and tumbling are also supervised.

to high school boys 9 - 12 the athletic department offers football - basketball and track.

5th - 6th - 7th - 8th's grades and 9th grade boys are expected to take physical. the high school girls and boys in grades 10 to 12 are encouraged to take athletics. 1/2 credit is given each year to high school kids participating.

so - gang - take a peek around. those built in muscles on our boys are here to stay.

robert gernand

francis cappaert

classmate

evelyn wangerin

virginia hanson

if you've ever been absent or tardy from school and went to the office to get an excuse - you were sure to see evelyn wangerin...evelyn is mr. martin's new secretary and a very capable one...she writes out the excuses for absences and tardinesses - does the filing and types out the office letters...so you can see she is kept busy.

evelyn's opinion of stephenson high school is—"it is growing fast."

who does everyone run to with all their problems - complaints and thousands of other things...none other than mrs. byron hanson (better known as "Gin")...ah yes she certainly is kept busy as secretary to mr. gucky...

can you imagine anyone this busy with a hobby...nevertheless she has one - which is - collecting pictures...

mrs. hanson was a cheerleader in her school days and is still actively interested in all sports events...

if you have a problem - if you want supplies - if you want to use the telephone just see mrs. hanson...that's if mr. gucky isn't dictating to her...letters - of course...

junior high

lo and behold! it's a cyclone! a mad man! heading right for you too! but wait—don't be alarmed—it's seen you and has slowed down... (to a mild trot) that my dear friends was "one" of our future high school students... dear little things struggling along through these tough years—gaining fast the places we have treasured so long and that we soon will be having to give up...

no one is more deserving of these honor places (and who else could get them) than our shining seventh graders...

they were lucky this year when they snagged two very understanding and co-operative teachers mrs judith morton and mr. harry wonders for homeroom advisors...

mrs. morton quiet—attractive—and supporting a swell personality instructs one seventh grade core... in this core of thirty two pupils they plan interesting and educational projects and then work on them... having traveled through michigan—texas and south carolina mrs. morton is able to make her classes (especially history) very interesting...

her pleasure mark strays between three things—art—craft work—and sewing...

mr. harry wonders—quiet—ambitious—and always busy (or at least seems to be) had his share of our shining stars too... it's really a miracle how he did it and still has a sense of humor... besides teaching seventh grade math—general science—history—and civics he instructed an eighth grade mathematics class...

mr. wonders also has a taste for traveling so far it has taken him to newport oregon on the west coast—south twice to north carolina—and to massachusetts on the east coast...

an all around sports fan is mr. wonders for he finds his greatest pleasures in fishing—bowling—skating—basketball—baseball—football and last but not least dancing...

with paper—pencils—and a few more teachers like mrs. morton and mr. wonders our bewildered lovers of play will soon find themselves on top...

judith morton

harry wonders

classmate

grade teachers

we wouldn't for a minute let you think we've forgotten our grade teachers - those who give us such an important beginning of our education.

mrs. gwen ralston - too crowded with her 44 little angels in the kindergarten moved in the fall to the methodist community house where they'd have more room to try their little wags

mrs. ralston attended northern state teachers college of marquette - university of california - master college of designing at chicago - and the national college of education in evanston - ill. . . she received a b.s. degree from the western michigan college of education . . .

she traveled through california - mexico - england and france . . .

her hobbies are knitting and crafts of all kinds . . .

mrs. melvin klokow taught 35 little first graders during the first semester . . . she has a bachelor of science degree from the university of new york . . .

mrs. klokow formerly of new york - has traveled through maine - missouri - and michigan . . .

hobbies calling her attention are collecting postcards and writing music . . .

miss elizabeth oas - after teaching one year in the foster city public schools - came to take over the first graders on jan. 30 of this year. . while attending northern michigan teachers college she took part in the following activities: college country life club - association of childhood education - newman club and peninsula staff . . .

gwendoline ralston

helen klokow

elizabeth oas

thirty-nine 2nd and 3rd graders are taught by mrs. robert egerer - who likes taking care of her two small children and sewing...

mrs. egerer has a state limited from northern michigan teachers college...she has also taught in l'anse mich...

her travels have taken her through michigan and wisconsin...

mrs. elizabeth naslund has supervision over the 3rd and 4th graders who number 44...

she has a life certificate from northern michigan teachers college...

mrs. naslund enjoys reading and gardening...

her travels have taken her through canada - michigan - illinois - and wisconsin...

a group of 45 5th and 6th graders keep mrs. lenora lienna hopping...

she received her education at northern state and the ferris institute...

travels took her through the western states...

mrs. lienna's hobbies are crafts and girl scout work (of which we hear she is a very good leader)...

girl and boy of the year

this year you students have chosen carol nelson and maurice larsen as the typical girl and boy of the year

carol known better by her friends as "bill" is sixteen years old and a junior this year

bill's favorite pastime is cheerleading and her favorite sport is basketball.

she likes spanish and dislikes chemistry.

the subject she likes best is contemporary literature.

her future plan is to be a nurse.

maurice larsen more often called "morrie" is eighteen and a senior of 1950.

morrie's favorite pastime and sport is football. his favorite subject is shop

he likes ice cream and dislikes any govt. (don't we all agree)

morrie has played basketball four years and football three years.

after graduation he plans on helping at home.

-classmate

Supports

football season

the 1949-50 football season was one of the most successful seasons for the stephenson eagles...they played seven games winning five of them...

robert gernand is the eagles' new coach...he is assisted by francis cappari who is also a new member of the faculty...

the eagles started out with very little experience but got into the swing of the game after taking a beating from the manistique emeralds who were the eagles' first opponents for the year...the emeralds defeated the eagles 6-0 on the manistique gridiron...but the larger and more experienced manistique team found the eagles a scrappy and stubborn team to defeat...

lourdes high school of marinette then came to stephenson where they were defeated by the eagles 13-7...the eagles had a sparkling defense and a smashing offense which decided the game...

the eagles intercepted four of the lourdes passes...dug melchoir intercepted one of these passes and three plays later he went over for a touchdown...anderson plunged for the extra point...

ken hofer intercepted another pass

and returned it to the lourdes 20...anderson then carried it to the 1 - from which melchoir went over again for the eagle's second touchdown...

in the last quarter lourdes scored by a series of passes making the score 13-7 in favor of the eagles...

then our high flying eagles journeyed to munising where they whipped the munising mustangs 14-6...the game was a battle during the entire first half ending in a scoreless tie...but in the remaining 5 minutes hofer ran 70 yards for the eagles first touchdown...then the eagles went to the munising 2 on straight plays and swede anderson plunged into the end zone...

niagara was the eagles next victim...score...34-6...the eagles had a 27-0 lead in the first quarter...they kept this lead throughout the game due to a wonderful defense and smooth ball handling...

the eagles then traveled to peshtigo where they defeated the peshtigo bulldogs 45-6...one of the worst defeats peshtigo suffered in their many years of high school competition...anderson started the game rolling with the eagles first touchdown...shortly after ken hofer recovered peshtigo's ball and ran it back 10 yards for

classmate

another touchdown...broberg received a punt and went down a clear field to score...in the third quarter melchoir finished off a series of straight plays with a touchdown to give stephenson its fourth touchdown...

in the fourth quarter peshtigo got its lone score - but the extra point was blocked by jim raboin...

after the eagles goal line had been crossed they tightened up again...anderson ran 35 yards and melchoir followed with a 19 yard run for a touchdown...a few minutes later ken hofer went down for another touchdown but it was no good - for the eagles were charged with clipping...the eagles scored three times before a touchdown was finally accepted...

at this time of the season stephenson boasted the best defensive record of any team in the peninsula...they had held their opponents to 31 points...

the eagles journeyed to gladstone for their next game where they were turned back by gladstone 20-13...a long run and some nifty blocking helped the gladstone braves turn back the eagles - but only after the eagles had given them a run for it throughout the game...

st. joseph high school came to stephenson to finish the football season for the eagles...this game was the homecoming celebration for the members of the stephenson eagles team and their coaches...

stephenson tripped the st. joe trojans before a record crowd of 3,800 - 18-0...the trojans were within the eagles 10 yard line five times - but failed to score on any occasion...but the eagles made their 3 touchdowns on a series of passes and straight plays...this game ended the eagles football season...

our salute goes to the team and their coaches - for a wonderful and exciting season...

junior varsity basketball team

top row, left to right—coach cappaert, francis mellinger, howard hubbard, loren leroy, harold schenvogt, steve kakuk . . .
2nd row—david hedin, roger lindquist, philip carroll, george carroll, kenny polsson . . .

basketball season

quiet - men sleeping...basketball players that is - and they deserve it after a season like the one they had last year...the dear lads ended up with a record of 9-7...the eagles opened by trouncing bark river 43-38...the broncos made 8 out of 20 free throws and 25 fouls - while the eagles sunk 5 out of 29 free throws and the fouls numbered 19...

the peshtigo bulldogs limped home after a vain attempt to clip the sturdy wings of a high-flying five...stephenson - 47 - 11 out of 25 free throws - 14 fouls; peshtigo: 42 - 8 out of 17 free shots and 18 fouls...

menominee faces certainly matched the deep maroon on their school sweaters when they lost a thriller 43-38...stephenson fans were far from blue, however - and the score book read - eagles 13 fouls - 13

good free shots out of a possible 24: maroons - 22 fouls - and 4 out of 13 extra buckets...

a stephenson quintet swooped down and came home with a pair of beautiful "blue devil" horns to hang above a sign saying "fourth straight win - 34-31"...vital statistics: stephenson - 12 out of 24 free throws good - 8 fouls; oconto - 5 out of 9 free throws and 22 fouls...

and then the straw that broke the camel's back...the trojans as mighty in basketball as their predecessors were in war - took stephenson for a ride and ended up ahead 56-48...st. joe missed 12 free throws but sent 8 straight through the center of the hoop...stephenson also sunk 8 - but missed a total of 12...the two teams both had 15 fouls...

the escanaba eskimos - down from the

north brought the chill winds of defeat with them too...the eagles fought a hard battle but finally succumbed to the icy blast and went under 45-43...the eskimos - used to playing with snowballs potted 11 free throws and only missed 6...stephenson - farther south - made 7 and missed 19...the fouls totaled 18 for escanaba and 15 for stephenson...

the gladstone braves were really on the warpath and went home with a few choice scalps to hang above their council fires...the fortitude of the braves led them to outdistance even the eagles 28-24...the foul count was braves - 16; eagles 17.... gladstone received 23 charity shots and sunk 10 - arrow straight - stephenson sent out 6 through the hoop while 10 went wild...

then the bulldogs came bounding back and inflicted a few wounds of their own to the tune of 54-51 - and went home with the tail feathers they missed the first time...peshtigo made 8 and missed 7 free throws and ran up 21 fouls...the eagles netted 15 out of 27 free shots and 15 fouls...

the manistique emeralds were certainly green with envy when they saw the score board jump to 37 for s.h.s. and 31 for manistique...manistique totaled 22 fouls - and 9 out of 17 free throws...the eagles on the other hand had 16 fouls and sunk 11 out of 28 charity shots...

the tigers came down from powers to try to get in on the kill...a slight miscalculation on the part of the tigers caused them to miss the target and they were driven back 48-45...powers went home with 18 fouls and 11 out of 21 free throws to their credit...the eagles ran up 19 fouls and 10 out of a possible 24 free shots...

menominee believed that another stephenson victory just wasn't in the books

cheerleaders

rah rah rah! what's the racket we hear as the roof goes off the gym of good old s.h.s.? its just our 6 capable cheerleaders cheering the eagles to victory.

now for a brief sketch of our cheerleaders. in the fall for football season we had only 3. those old faithfuls surviving from the last year were lorraine aman - virginia allegeyer and marion rasmussen.

for basketball season tryouts were held to add 3 more varsity cheerleaders to the squad. four teachers and one officer from each class acted as judges and chose

but they forgot to reckon with the score book - which read 43-30 in favor of the blue and gold...both teams had 15 fouls; menominee sunk 8 free throws and missed 11 - while stephenson settled for 9 out of 19...

the eskimos - again full of northern hardiness - trampled over stephenson the second time for a 47-39 win...escanaba chalked up 22 fouls; 13 out of 22 charity shots...the eagles side of the scorebook read 17 fouls and 15 out of 29 free throws...

stephenson threw supersitition as well as the oronto blue devil - out of the window in their return engagement - to the tune of 39-37...oronto ran up a total of 28 fouls and made good on 5 of their 21 free shots...the eagles ran up 13 out of 29 free throws and 17 fouls...

the escanaba jinx came back to haunt the eagles in the form of the st. joe trojans and a 65-48 score...st. joe made 20 fouls and 17 out of 21 free throws...stephenson made 17 fouls and 15 out of 32 charity shots...

the broncos came bounding back from bark river and were promptly squelched by the magnificent score of 70-34...the fouls totaled 19 for stephenson to 18 for bark river...the eagles missed 12 free throws and the broncos missed 15...

the last game of the season with manistique sent the eagles limping home with a 45-29 defeat...stephenson kept the fouls down to 16 while the emeralds ran up to 20...the eagles missed 12 free throws to 10 missed for manistique...

what do you think of our basketball team now? someday when you look back on your high school career remember with pride the team that beat menominee twice in one year...

marlyn phillips - rosalie phillips and carol nelson.

they got new blue corduroy skirts to wear with their gold sweaters.

every junior varsity team needs its cheerleaders also. tryouts were held in front of the student body. members of the student council and the senior cheerleaders chose the following 8: rita kosewski - shirley lemke - carol corey - rosemary muma - shirley foley - betty blom - rosemary anderson and fern bright.

yes sir thats our pep squad. onto curvaceous clever!!

BEST WISHES

to

CLASS OF 1950

Menominee Boiler Works

Menominee - - - - Michigan

GOOD LUCK!

Because so many of you know so many of us so well, we cannot miss taking this opportunity to wish all the graduating class of this school the very best of good luck!

You are graduating to-day in almost the only nation in the world with a high standard of individual freedom. The decision of whether you want that freedom may be, in time, up to you. The belief that the individual is the master, not the servant of the state, is unique in this land. Let's not lose it because we take it for granted!
